XTRU-1890

Impact Lighting's **XTRU-1890** is a versatile high quality mounting channel for various custom LED strip lighting applications such as signage, glass or acrylic edge lighting.

Using flexible or hard led strips this channel is constructed to hold 2" materials such as glass, acrylic for sign boards, directional signage, maps, etc.

The **XTRU1890** mounting channel utilizes LED tape light and is easily placed on horizontal or vertical surfaces allowing you to create your own custom LED low voltage lighting scheme.

Please Note: These profiles are only compatible with strip light 0.4 inches wide or smaller.

Actual Size

MOUNTING

- Glass: stretching screws
- Surface: metric thread screws & screw anchors
- Endcaps: Plastic and stainless steel available
