INTELLIGENT SERIES

ACTUAL SIZE

DESCRIPTION:

The ES-LED-RGBW M series LED controller can work with up to 10 remotes which means using just one controller can achieve single color/CT dimming, and RGB/RGBW adjustment to meet different lighting requirements. The RF remote controls single colors, brightness, and speed. You can also customise and save color and light changing modes.

REMOTE SPECIFICATIONS:

- Working Voltage: 3V DC (battery CR2032)
- Working Frequency: 433.92MHz
- Remote Distance: 30m
- Working Temp.: -30°C ~ 55°C
- Weight (N.W.): 42g

CONTROLLER SPECIFICATIONS:

- Input Voltage: 5~24V DC
- Max Current Load: 5A×4CH Max 20A
- Max Output Power: 100W/240W/480W(5V/12V/24V)
- Working Temp.: -30°C~55°C
- Weight(N.W.): 125g
