

ALUMINUM MOUNTING CHANNEL

(does not include handrail)

XTRU-1718 LED Profiles are an innovative way to create your own light fixtures with LED Strip Light. Suitable for surface mounting or recessed installation, these high quality profiles provide a unique way to make use of linear low voltage lighting and are the designer's choice for creating light fixtures for commercial and residential LED strip lighting.

The XTRU-1718 Aluminum Mounting Channel is used to hold LED tape light and allows you to create your own custom LED low voltage lighting scheme.

Please note: These profiles are only compatible with strip light 0.4 inches wide or smaller. They are compatible with ThinGlow LED Strip Light.
